OBSERVATIONS

Interest among the old, so many precious hours to organization work, that he has altogether too little time for devotion to his primary mission, which is to provide moral inspiration through interpretation of the Word of God, a task requiring deep study and profound meditation.

* * *

If congregations would relieve their pastors of many of the materialistic burdens now thrust upon them, if church members would devote more time to the finances and organization work, ministers of the gospel would be able to give their entire time to problems of devotional practice, preparation of sermons, ministrations of mercy, and the upbuilding of interest in church activities.

Glory to the men who have given their lives unselfishly to the work of God. Their very self-sacrifice ought to be an inspiration to us all. And despite modern tendencies, despite the lure of far places, we should display our appreciation by going to church, supporting our churches morally and financially and in person.

Else this material progress of which we boast is not progress at all, but a backward movement, taking the world away from the only goals that are worth while.

Three Wells Add to Field's Production

Three wells were placed on production Tuesday and Wednesday. Petroleum Securities company completed its No. 8 on the Marble lease at 3795 feet for 600-barrel production. The Doruth Oil company brought in Mitchell No. 1 on West Pepper street for 400 barrels a day. The well was drilled to 3780 feet. The Petroleum Midway Oil company's Detrich No. 1, north of Federal's Gerner No. 1 on

Narbonne avenue, was completed at 3785 feet. The well is flowing at a rate of about 400 barrels a day. This is particularly gratifying, because other wells close by are on the beam.
